Nancy Seaman was tried and found guilty of murder in the first degree and was sentenced to life in prison. If the ruling is upheld Nancy's life sentence could be reduced to as little as seven and a half years. 01/07/06      **48 HOURS MYSTERY: "The Girl Next Door"**--reports on two instances in which forensic sculptors were called upon to help identify murder victims:  
1) on the night of May 1, 2003, a teenage girl's body was found in a trash bag left behind a restaurant in Castro Valley, California. The gruesome discovery became detective Scott Dudek's obsession and touched the entire community, which came to call the young girl "Castro Valley's Jane Doe." The community rallied to raise money to bury her. Then, two years after "Jane" was found, as a last-ditch effort to identify the girl, Detective Dudek of the Alameda County Sheriff's office made the decision to exhume the body to search for clues that might have been missed. Forensic artist Gloria Nusse created a forensic reconstruction of Jane's face based on nothing but the skull in the hope that someone might recognize her. Detectives have tracked down over 800 leads to identify "Jane", and more than 350 missing girls have been ruled out.  
2)an interview with forensic sculptor Frank Bender of Philadelphia whose facial reconstruction helped solve another murder. Gregory May disappeared in January 2001 from Bellevue, Iowa -- his children suspected foul play. When May's antique collection turned up for auction, police found the seller to be May's former friend and house-mate Doug DeBruin. Subsequently police found a skull at a truck stop hundreds of miles from Iowa. Bender was brought the skull to reconstruct the face -- and authorities later identified it as May. Other portions of May's body were located providing sufficient evidence to bring DeBruin to trial for murder. Includes an interview with Ellen Leach of the Doe Network, a group of amateur detectives dedicated to helping law enforcement solve cold cases by scouring the Internet searching for missing persons and unidentified persons and matching them up. 01/21/06

**48 HOURS MYSTERY: "The Phone Call"**- when Shannon Melendi, a 19-year-old sophomore at Emory University in Atlanta disappeared in March 1994, authorities believed she had either run away or had taken part in a college prank. Melendi's roommate, Athena Perez, became worried when her friend didn't return to the dorm room the evening of March 26. The next day, Perez and her friends found Melendi's abandoned car with the keys in it and called police. Following an extensive police search of the area that turned up no signs of the missing girl, the Melendi family and friends began their own aggressive search, offering a \$10,000 reward for information and tapping into celebrities Andy Garcia and Bo Jackson who appeared on national television programs in an effort to help find Shannon. Nearly two weeks after Melendi vanished, an anonymous male phoned the Emory University counseling center claiming he had Shannon. The FBI traced the call to a pay phone where police found evidence that was intentionally left behind by the caller, a package containing a ring that belonged to Melendi. Only then did authorities treat the case as a kidnapping. Investigators managed to trace pieces of the package to Colvin "Butch" Hinton III, an umpire at the softball field where Melendi worked the day she went missing. Authorities searched Hinton's home and property but found no human remains and nothing that could be linked to Shannon. They did uncover the fact that Hinton had a violent criminal past covering decades. In late 2003, a new prosecutor took up the case, and more than ten years after Shannon Melendi disappeared, police and FBI agents arrested "Butch" Hinton and charged him with her murder. Hinton was tried, found guilty of kidnapping and murder, and sentenced to life in prison. Yvonne and Luis Melendi, Shannon's parents, have set their sights on a new mission, seeking longer prison sentences for sexual predators, especially repeat offenders like Hinton. **48 HOURS MYSTERY: "Rage On The Run"** - bodybuilder David Bieber of Ft. Myers, Florida started using steroids in high school and as an adult began selling them to support his expensive career. Bieber went into business with fellow bodybuilder Markus Mueller, a German who was able to smuggle the drugs into the U.S. from Europe. Bieber had an affair with Mueller's girlfriend, Danielle LaBelle, and subsequently married her. In February 1995, Bieber drove LaBelle to Mueller's home to retrieve her purse while he waited in the car. When LaBelle found Mueller dead in the doorway she suspected that Bieber had killed him. Two men admitted to police that Bieber had hired them to kill Mueller, but before he could be arrested, Bieber disappeared. He bought the birth certificate of a deceased child, Nathan Wayne Coleman, and took on his identity and, in 1996, fled to Leeds, England where he was undiscovered for almost eight years. On Dec. 26, 2003, Leeds police approached a car that was parked strangely on the side of the road. The vehicle turned out to be stolen and the driver, Coleman, in the process of being handcuffed, opened fire on the three unarmed arresting officers and escaped. One officer died of his wounds and a nationwide manhunt was launched. Bieber was finally apprehended, tried for the murder of the police officer, and sentenced to life in prison. Danielle LaBelle divorced Bieber in 2003. There are no plans to try him for the murder of Markus Mueller.
